

UV & WATER RESISTANT LABELS

WHAT TO EXPECT

Access to experienced industry advice on the right materials, production methods and format options available to you. Bring existing art with you, or simplify the process even further by letting our inhouse design and typesetting service prepare your art.

Our equipment and production standards prioritise quality. This means that we can cater for specific client requirements that extend beyond that of the standard of products widely available on the market.

From static and removeable to industrial quality adhesion. From fine wide gamut colour reproduction, to high gloss, dense colour impact. Water, UV, oil and graphiti resistant options ensure our products keep looking good when in front of your clients, customers and potential market.
